Introduction:

Appointments App is multi-Branch and multi-consultant Application. Based on selected branch, each consultant has predefined unique time- range of consultation.

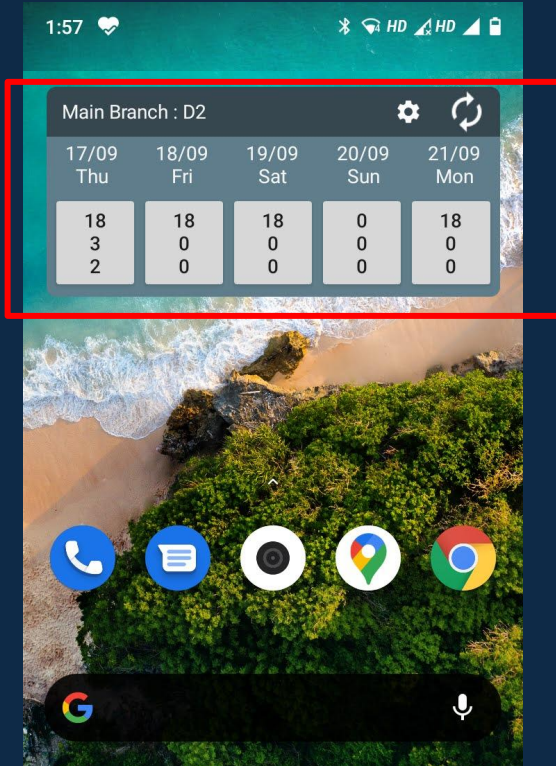

When patient visits the clinic, the details of appointment are visible in CRYSTAL app directly and then there is no need to check in appointments app.

If patient visits 60 minutes before or after the actual appointment time, then the patient is considered as walk-in patient.

While taking appointment on phone, ask for minimum information (like name and mobile number). When patient visits the clinic, then ask for full details which can be entered in the app.

Add Widget

Widgets

Use :

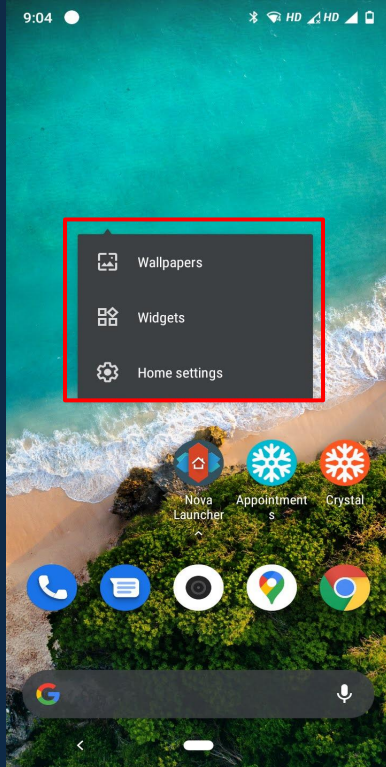

Widget gives you direct shortcut to specific consultant. This will ease the appointment booking process.

Widget shows summary of consultant appointment for current week.

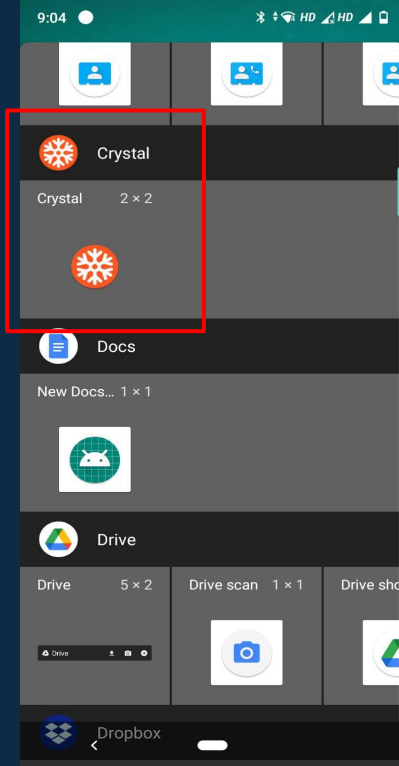

Per consultant, one widget will be created.

To add Widget :

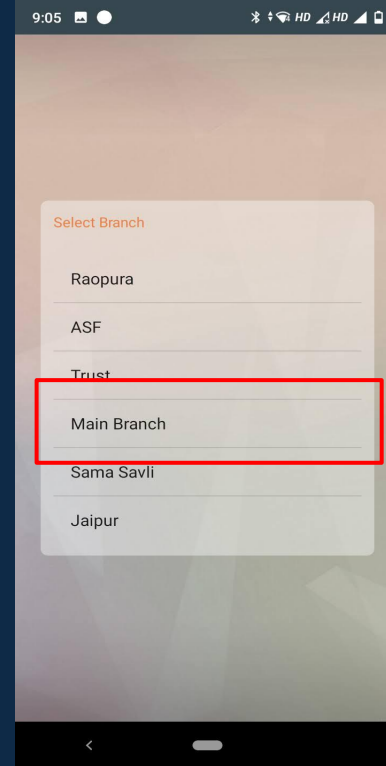

1. Long press on blank space on mobile.

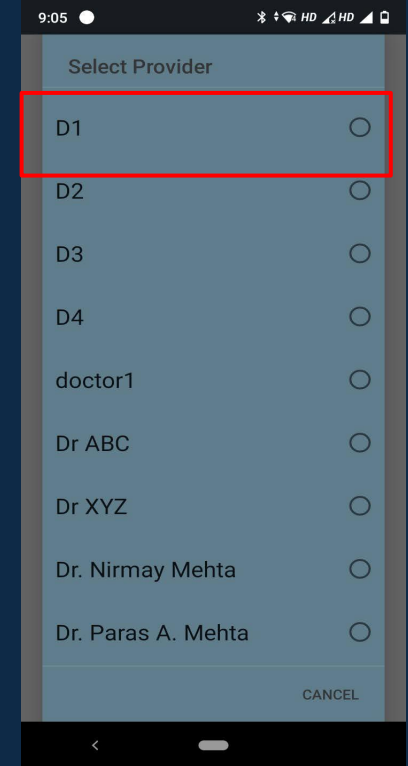

2. Select CRYSTAL Widget from list

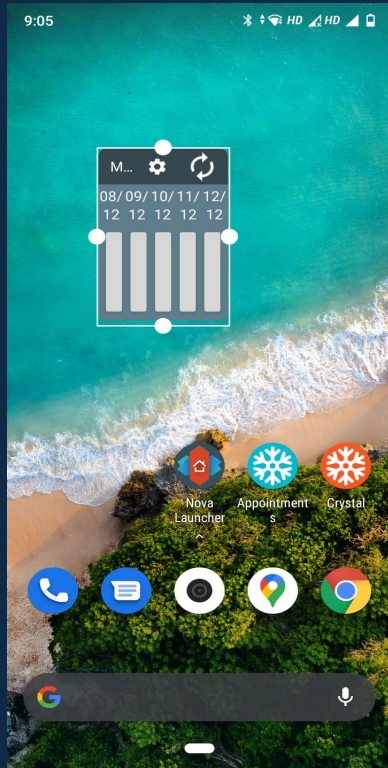

3. Select branch name

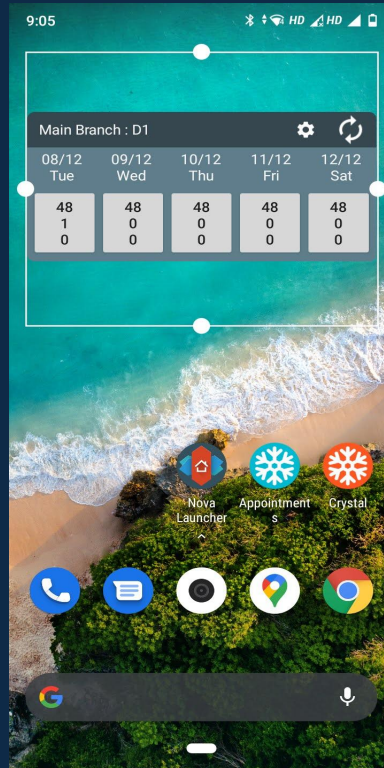

4. Select consultants name

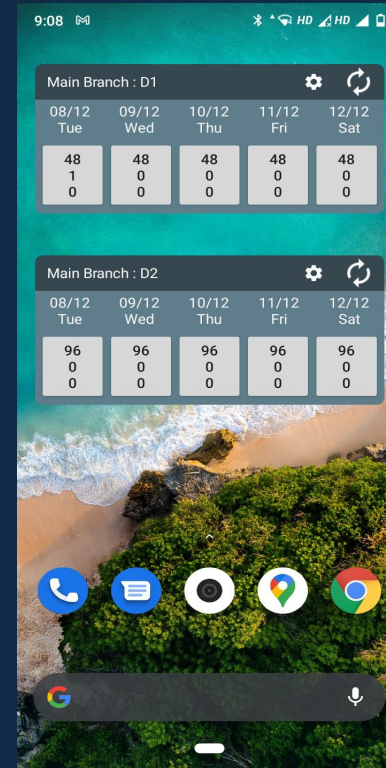

5. Widget will be added on screen

6. Resize the Widget to see more details.

7. For each consultant, one Widget can be added for easy access.

Widget Details

Branch Name

Consultant Name

Today's Date

Main Branch : D2				
17/09 Thu	18/09 Fri	19/09 Sat	20/09 Sun	21/09 Mon

Create New Appointment

Create New Appointment

The screenshot displays a mobile application interface for creating a new appointment. At the top, there is a header bar with 'Main Branch' on the left, 'TODAY' in the center, and search, refresh, and menu icons on the right. Below this is a section for patient and doctor selection, showing 'Ami Mehta' and 'D1', 'D2' (which is highlighted with a white dot), 'D3', 'Dr ABC', and 'Dr XYZ'. A calendar view follows, with 'SEP' selected and the date '17' highlighted in green. Below the calendar is a list of time slots, with '01:15' highlighted by a red rectangular box and a red arrow pointing to it. The bottom of the screen features a status bar with 'Total Appts: 0' and 'Pending: 0'.

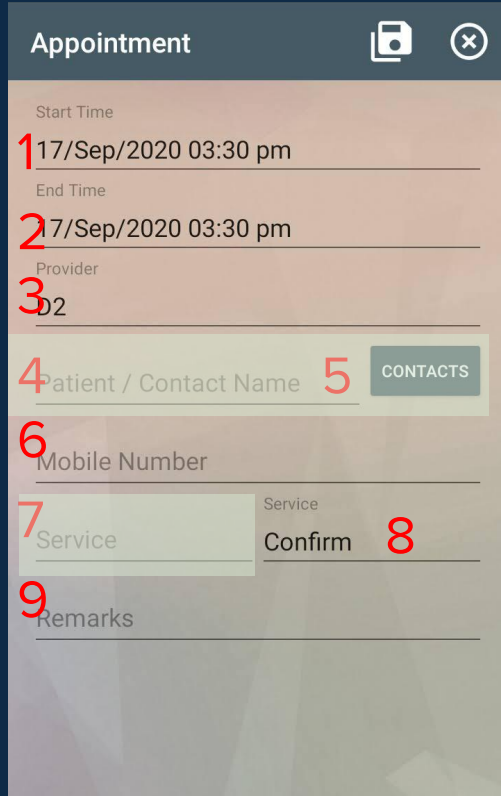

Before Creating any appointment, Check for correctness of. :

- Branch Name
- Doctor Name
- Month
- Date

Select Appointment time-slot after discussion with patient over phone/email.

After this, a new Appointment details page will open (Refer next slide)

Create New Appointment

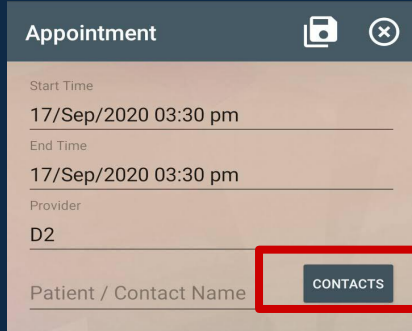

The image shows a mobile application form titled "Appointment". It has a header bar with a save icon and a close icon. The form contains several input fields and a button, each with a red number indicating a step in the process:

- 1** Start Time: 17/Sep/2020 03:30 pm
- 2** End Time: 17/Sep/2020 03:30 pm
- 3** Provider: 02
- 4** Patient / Contact Name
- 5** CONTACTS button
- 6** Mobile Number
- 7** Service
- 8** Confirm
- 9** Remarks

1. **Start Time** : Auto-generated
2. **End Time** : Auto-generated
3. **Provider** : Doctor name - Auto-filled
4. **Patient /Contact Name** : Enter Patient Name
5. **Contacts Button** : Select Existing Patient Name from Database (Refer next slide for more details)
6. **Mobile Number** : Auto-filled based on Patient Details
7. **Service requested** : Enter Service Details of Patient
8. **Service confirmation** : Select from drop-down list
9. **Remarks** : Enter Remarks, if any.

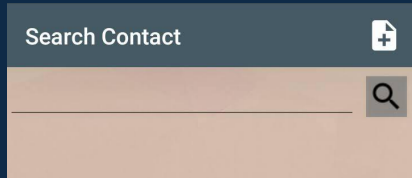

Once All details are filled, **save** the Appointment.

Select Existing Patient

The screenshot shows an 'Appointment' form with a dark header bar containing a camera icon and a close icon. The form has several input fields: 'Start Time' with the value '17/Sep/2020 03:30 pm', 'End Time' with the value '17/Sep/2020 03:30 pm', 'Provider' with the value 'D2', and 'Patient / Contact Name'. A dark button labeled 'CONTACTS' is positioned to the right of the 'Patient / Contact Name' field. A red rectangular box highlights this button, and a red arrow points from the text 'Press CONTACTS' to it.

Press **CONTACTS** for selecting Existing Contact or Creating New Contact

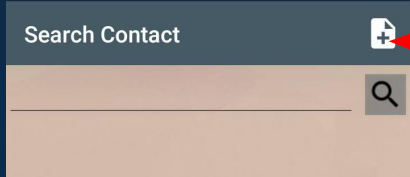

The screenshot shows a 'Search Contact' form with a dark header bar containing a plus icon. Below the header is a search input field. To the right of the input field is a magnifying glass icon. A red rectangular box highlights this icon, and a red arrow points from the text 'Search for Existing Patient' to it.

Search for Existing Patient and add to appointment.

Search the patient using mobile number, Aadhar number or first name or last name.

Create New Patient

Appointment for New Patient :

Press on ' + ' button.

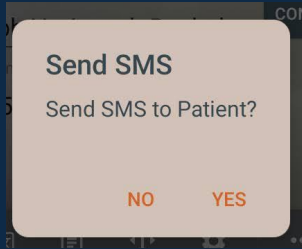

A New Window Will Open to Enter More Details

Enter Full name (avoid initials) of patient and mobile number. This much information is sufficient for appointment purpose.

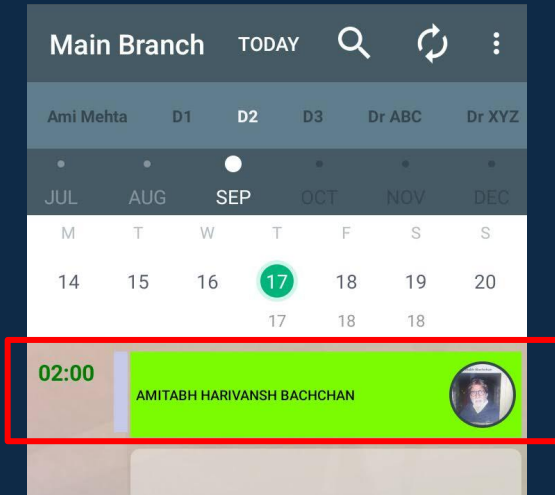

(Avoid entering initials & special characters)

Save the page and Save the Appointment.

Create New Appointment

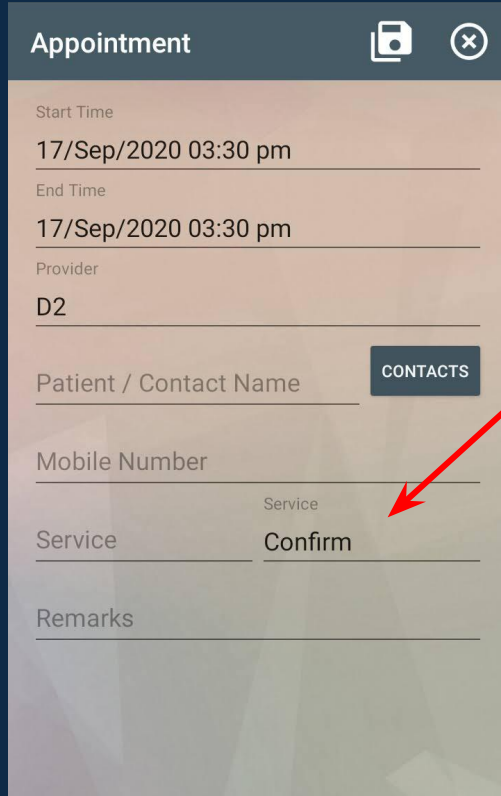

Once the Appointment is saved, a pop-up window will display to send SMS. Confirm Yes or No.

Newly created Appointment will be displayed in Home-screen next to selected time-slot.

Cancel an Appointment

The screenshot shows a mobile application interface for managing appointments. At the top, there is a header bar with the title 'Appointment' and two icons: a document with a plus sign and a circle with an 'x'. Below the header, the form contains several input fields: 'Start Time' with the value '17/Sep/2020 03:30 pm', 'End Time' with the value '17/Sep/2020 03:30 pm', and 'Provider' with the value 'D2'. There is a 'CONTACTS' button next to the 'Patient / Contact Name' field. Below this, there are fields for 'Mobile Number', 'Service', and 'Confirm'. A red arrow points to the 'Service' field. At the bottom, there is a 'Remarks' field.

To cancel an appointment :

- Locate the name of patient.
- Under service head, select service-status as “CANCELLED”, and save the details.
- A window will appear to send SMS regarding cancellation. Select YES to send SMS.
- Once the appointment is cancelled, The patient's name will be strikeout in appointment list.
- A new entry field will be visible against cancelled slot which can be used for new patient appointment.

Appointment patient details in Crystal App

While generating token for appointment patient, the appointment details are visible below patient details.
