Create New Blank Token

Press New Token Button

A window will appear to confirm token creation - press 'Yes'

A new Blank Token will be generated & It will be visible in Home Screen page.

Create New Patient

Press on Newly Created Blank Token

Press for creating New Patient.

A New Window Will Open to Enter More Details
(Refer Next Slide for Details)

Search for Existing Patients.

Create New Patient

The screenshot shows a mobile application interface for creating a new patient. At the top, a dark blue header bar contains the text 'Contact Editor' and four icons: a barcode, a photo, a close button, and a menu. Below the header is a tab bar with five options: 'BASIC', 'ADDRESS', 'REF', 'TAGS', and 'MISC'. The 'BASIC' tab is highlighted with a red border. The main form area has a light orange background. It features a circular profile picture placeholder with a cartoon person icon. Below the photo is a 'Title' dropdown menu. The 'Contact Name' field is a wide text input. Below this are several smaller input fields: 'Birth Date', 'Age', and 'Gender' in the first row; 'Language' and 'Religion' in the second row; 'Patient Code' and 'Alternate Code' in the third row; 'UID' in the fourth row; and 'GSTIN' in the fifth row. At the bottom is a large 'Remarks' text area.

BASIC

Photo : Add by clicking on photo icon.

Title : Select from drop-down list
